<p>Identification</p> <p>Resource Title: Nomenclature of Territorial Units for Statistics (NUTS) 2010 - Statistical Units - Data set</p> <p>Resource Abstract: This data set represents the regions for level 1, 2 and 3 of the Nomenclature of Territorial Units for Statistics (NUTS) for 2010. The NUTS nomenclature is a hierarchy of statistical regions and subdivides the EU economic territory into regions of three different levels (NUTS 1, 2 and 3, respectively, moving from larger territorial units). NUTS 1 is the most aggregated level. The NUTS classification has been officially established through Regulation (EC) No 1059/2003 of the European Parliament and of the Council and amendments. A non official NUTS-like classification has been defined for the EFTA countries and candidate countries. An introductory NUTS classification is available here: http://epp.eurostat.ec.europa.eu/portal/page/portal/nuts_nomenclature/introduction This data set has been created mainly from the EuroBoundary Map v 5.0 (Eurogeographics), geographic information from TurkStat for Turkey, the Global Administrative Unit Layer from FAO (UN) for Macedonia and the Global Administrative Unit Layer from FAO (UN) for Macedonia communes per statistical region provided by the countries. The public data set is available under the "Download link" indicated below. Available scales are 1M, 3M, 10M, 20M, 60M. The full data set is available via the "EC restricted download link" under "GISCO.NUTS_2010". Here six scale ranges (100K, 1M, 3M, 10M and 20M, 60M). Coverage is the economical territory of the EU, EFTA countries and candidate countries as in 2010</p> <p>Resource Type: Dataset</p> <p>Information link: https://circabc.europa.eu/d/d/workspace/SpacesStore/475ee0bc-5a40-447f-97ab-94c8e1464d72/GISCO%20DB%20Manual%20v2.2.1.pdf</p> <p>Download link: http://epp.eurostat.ec.europa.eu/portal/page/portal/gisco_Geographical_information_maps/popups/references/administrative_units_statistics</p> <p>EC restricted download link: http://myintracomm.ec.europa.eu/dg/ESTAT/6-tools/GISCO/AccessGeographicalRef%20Database/Pages/AccessGeographicalRefDatabase.aspx</p> <p>Unique Resource Identifier: {15ADF8E2-502D-477B-9BE2-99C989EAB0A4}</p> <p>Resource Language: English</p>

<p>Quality and Validity</p> <p>Lineage This dataset is based on: EuroBoundaryMap (EBM) v5.0. from EuroGeographics (scale of 1:100.000), Global Administrative Unit Layer (GAUL) 2008 country data from UN/FAO, data from National Statistical Institute of Turkey (TurkStat), General Register Office for Scotland (GRO) (scale 1:100.000), Digital Chart of the World from ESRI for Kaliningrad, ArcWorld from ESRI for the Aral Sea, the Caspian Sea, some other borders. The different scale levels were derived by generalisation of the 100K scale. This data set consists of 2 feature classes (region polygons boundaries) per scale level (100k, 1M, 3M, 10M, 20M, 60M). In addition there is also a label feature class (scale independent). This labelpoint feature class was created with a label in the NUTS region at the 3 NUTS levels (1 - 3) and countries. Furthermore two line feature classes were created: one feature class for cartographic joiners to identify where NUTS areas have enclaves and a second line feature class for cartographic separators, to identify where the NUTS limits are in the sea. The arcs of two latter feature classes are only useful for cartographic purposes and are not meant to identify actual administrative or statistical boundaries stretching into the sea or any other significance. The boundaries and regions are related to each other through the relationship table. Associated tables contain basic information such as the region's name. The 5 small scale feature classes should be used exclusively for cartographic purposes. This is consistent at all scales with the following data sets: "Communes 2010 à European Commission, Eurostat/GISCO", "Countries 2010, European Commission - Eurostat/GISCO", "Coastline 2010, European Commission - Eurostat/GISCO", "Exclusive Economic Zones 2010, European Commission - Eurostat/GISCO". Different tests were performed to ensure conceptual-, domain-, topological- consistency. A detailed description of these tests can be found in the data base manual. 2014-01-10: Errors in data delivery repaired and Saint Barthélemy also removed from level 0 (Country level) but remains in all other NUTS levels 2014-01/30: Name changes for NUTS level 2 in Turkey. Equivalent Scale	100000
-------------------------	--------

Spatial Resolution (To)	
Equivalent Scale	60000000

Conformity	
Creation	
Specification Title	Commission Regulation (EU) No 1089/2010 of 23 November 2010 implementing Directive 2007/2/EC of the European Parliament and of the Council as regards interoperable spatial data sets and services
Specification Date	2010-11-23
Degree	Not evaluated

Constraints related to access and use	
Conditions applying to access and use	This data set should be referred to as: "Nomenclature of Territorial Units for Statistics (NUTS) 2010 - European Commission, Eurostat/GISCO" An overview of the use conditions is given below. The detailed use conditions are available here: https://circabc.europa.eu/d/d/workspace/SpacesStore/6f5186f3-908b-4191604976751/EuroGeographics%20Use%20Conditions%20-%20From%20Contract.pdf Access to the detailed data is restricted to the personnel of the Commission, the Executive Agencies and contractors, due to intellectual property rights. The contractors can access the data after signing an agreement form which can be requested by the responsible service from European Commission - Eurostat/GISCO (ESTAT-GISCO@ec.europa.eu). Once the form has been signed, access will be provided by European Commission - Eurostat/GISCO. Data can be published in the form of electronic images, statistical tables or paper. Subsets of this data can be made available to the general public for non commercial use, only if the data covered either has a spatial resolution of 1:1.000.000 or smaller, or less than 20% of the original EuroGeographics data is shown for the selected extent. The source and intellectual property rights must be acknowledged. To this end, an acknowledgement as specified below must be visible on any printed or electronic publication using the data. Acknowledgement notice, depending on the language used in the publication: English: Administrative boundaries: Â© EuroGeographics, Â© FAO (UN), Source: European Commission & Eurostat/GISCO French: Limites administratives: Â© EuroGeographics, Â© FAO (UN), Â© TurkStat Source: Commission européenne & Eurostat/GISCO German: Verwaltungsgrenzen: Â© EuroGeographics, Â© FAO (UN), Â© TurkStat Quelle: Europäische Kommission Eurostat/GISCO For publications in languages other than English, French or German, the translation of the acknowledgement notice in the language concerned must be used.
